

Australian Alps Walking Track Projects 2014 More info sheet

Extremes of Weather: These works are at high elevation - expect cold wet (including below 0C temps) or hot dry conditions at any time of the year.

Quality camping gear, and quality clothing is a requirement.

If you do not have the minimum gear requirements we cannot allow you to volunteer.

You can still get freezing conditions and snow in summer, making you susceptible to exposure and hypothermia.

It's also really important that you bring a waterproof jacket and preferably water proof pants to keep you dry.

Base camping: We will be base camping but we may have to carry our gear into our campsite up to 500 metres from the vehicle. It would be an advantage to keep your gear to the necessities to so you don't have too much to carry.

Remote location. It is most likely that there will not be toilet facilities where we will be camping and definitely no shower facilities.

Essential Equipment list

Small water proof tent suitable for temperatures below zero with a fly (Projects 4,5 & 6 only)

At least a Minus 2 rated Sleeping bag, sleeping mat and clothes for the week

Water proof coat and if possible waterproof pants

Beanie, gloves and a broad brimmed hat

Hiking or work boots & thermals

Personal toiletries, towel and toilet paper and hand trowel

Personal Medication

Water bottle & Hand sanitiser

Day pack & Snacks

Large backpack/gear bag

Head torch or small camp torch

Camping/hiking plate, bowl & cutlery

Money for lunch on the way and the way home

Departure time. We will be meeting at the CVA office in Bendigo at 10.30am on the Sunday of each trip and departing at 11am. *Each trip will return to Bendigo the following Saturday at approximately 1pm.
